A new leader for new challenges.

As announced back in March, today Leopoldo Cedillo Villarreal takes over Proeza Group's management after Enrique Zambrano Benítez retirement as CEO of Proeza, remaining only as Chairman of the Board.

Polo has over 25 years of experience within the Group, where we accomplished extraordinary results, such as leading Metalsa to become a global company and consolidating a culture of innovation, collaboration, and customer service.

We thank Polo for the time he was leading the company, we congratulate and wish him the best in this new role.

Jorge Garza will assume Metalsa's leadership. Jorge counts with an extended and successful path within the company, supported by solid leadership and culture. Accompanied by a great team, Metalsa will keep going forward to its vision.

"Every organization needs to refresh itself and I know that Jorge's leadership is going to take Metalsa to a new level and make an extraordinary work. Metalsa is a great place to work and I am going to miss that. It has been an incredible journey, 25 years of learning, and building great things with the help of a great team. I am happy that I will continue to be part of this family now as Grupo Proeza CEO" expressed Polo, at his last meeting with the Metalsa team.

We welcome Jorge as the new Metalsa CEO and wish him success on this new journey that has just begun.
